

GMP training, quality systems, and AI.

For biotech and pharma manufacturers. Plan and execute training, qualification, SOP authoring, inspection readiness, and AI implementation with clear ownership and controls.

WHAT I DO

01

Workforce Development, Training Systems & Custom GxP Authoring

Training architecture, role readiness, onboarding, and qualification systems, including custom SOPs, master SOPs, and work instructions.

02

Quality Assurance & Pre-Inspection Readiness

Stronger documentation, quality-system execution, and readiness for FDA, EMA, or internal inspection.

03

Ramp-Up Optimization & Operational Efficiency

Practical operating models, process improvements, and scalable ramp-up plans that keep control intact.

04

AI Strategy, Implementation & Workforce Readiness

Adoption planning, practical use cases, implementation support, personnel upskilling, and post-implementation analysis.

WHERE TO START

A new site, team, or newly acquired site	GMP Training, Qualification, and Ramp-Up
Hiring faster than you can train	Accelerator, or a scoped ramp-up engagement
Training records that don't show task readiness	Training Audit
An FDA or EMA inspection on the calendar	Quality Assurance & Pre-Inspection Readiness
AI entering GMP documents and decisions	AI Strategy, Implementation & Workforce Readiness
Procedures for new or changed processes	Hourly Advisory & Custom GxP Authoring

ABOUT BRIAN

Brian J. Drapeau has spent over a decade building and leading GMP workforce development and training programs at organizations that manufacture therapies for patients who are out of options. His experience spans Novartis, Bristol Myers Squibb, Rocket Pharmaceuticals, Lonza, and MADE Scientific, with a specialization in cell and gene therapy.

Lean Six Sigma Green Belt · BCSI Certified Evaluator · BS Biology, LIU Brooklyn

Writes Drapeau's AI Deep Dive for Pharmaceutical Technology · Featured on Veeva LearnGxP · Preferred vendor for custom document authoring, Mareana

CONSULTING PACKAGES

Hourly Advisory & Custom GxP Authoring

\$325 per hour, 2-hour minimum

Custom SOPs, master SOPs, and work instructions from your processes, sources, and SME interviews, with a written summary of recommendations.

Training Audit

\$6,500 per assessment

Current-state review, gap analysis against 21 CFR Part 211, risk-ranked findings, a 90-day remediation plan, and an executive summary.

Accelerator

\$7,500 per engagement

Rapid training-architecture build: complete template library, custom framework development, 4 hours of strategic consulting, and 60-day priority support.

Monthly Retainer

\$3,000 per month

10 hours of consulting per month, template library access, audit-readiness check-ins, a dedicated Slack or Teams channel, and priority scheduling.

Enterprise, custom pricing. Multi-site deployments and organizational overhauls: full library, dedicated consulting hours, custom frameworks, and on-site or virtual workshops.

TEMPLATE LIBRARY

Knowledge Transfer Assessment Framework	\$1,250	Train-the-Trainer Program Blueprint	\$1,250
New Hire Onboarding KPI Dashboard	\$1,495	Training Effectiveness Measurement Model	\$1,250
Aggressive Ramp-Up Hiring Playbook	\$1,250	GMP Training Matrix Architecture	\$1,250
LMS Best Practices & Configuration Guide	\$1,250	Competency Gap Analysis Toolkit	\$1,495
Training Document Authoring Methodology	\$1,250	Core Library, four packages	\$3,995

Each package includes the framework or guide, a quick-start guide, a presentation, and a work aid. Single-organization internal-use license.

FOR AI-SUPPORTED WORK

AI Work Authorization Toolkit

A single-organization license for a life-sciences AI work-authorization system.

Life Sciences AI Academy

Role-based AI learning for regulated work: 13 tracks across five stages, with assessment-gated credentials. lifesciencesai.academy

Start with a 30-minute discovery call.

Every engagement starts with a written scope and named client decision owners.
